

Aaman Sayyed

Backend Developer | Node.js | TypeScript | Express.js | REST APIs

Pune, Maharashtra, India | sayyedaaman9@gmail.com | 070206 11797 | sayyed-aaman | sayyedaaman2

Summary

Backend Developer with 1.6+ years of experience building and maintaining RESTful APIs using Node.js, Express.js, and TypeScript. Skilled in MongoDB schema design, query optimization, JWT/OAuth 2.0 authentication, RBAC, Redis caching, Docker, and AWS deployment.

Experience

Awwaltech, Backend Developer

Noida, India

Oct 2025 – present

1 year

- Developed and maintained 10+ RESTful APIs using Node.js and Express.js, supporting core platform features with response times under 200ms.
- Optimized MongoDB schemas with compound indexes, reducing average query execution time by 35%.
- Implemented JWT, OAuth 2.0, and RBAC with input validation across all backend endpoints.
- Integrated Redis caching and rate limiting middleware, reducing invalid API calls by 40%.
- Documented all endpoints with Swagger/OpenAPI and collaborated with a 5-member engineering team on production backend modules.
- Containerized services with Docker and deployed via CI/CD pipelines to AWS.

Support Lets Talk, Backend Developer

Delhi, India (Remote)

Apr 2023 – Sept 2023

6 months

- Migrated a legacy Laravel backend to Node.js and Express.js, reducing codebase complexity by 30%.
- Built 8+ RESTful APIs with centralized error handling, request validation, and MVC architecture.
- Optimized MongoDB queries using compound indexing, reducing average response time by 40% for high-traffic endpoints.
- Implemented Passport.js and OAuth 2.0 authentication across all API routes.

ResumerPro, Backend Developer Intern

Noida, India (Remote)

Jan 2023 – Mar 2023

2 months

- Developed backend services for a Q&A platform serving 500+ users using Node.js and MongoDB.
- Built REST APIs following MVC architecture with JWT authentication and role-based access control.
- Collaborated with a frontend team to deliver end-to-end features within sprint deadlines.

Projects

SixInd

Oct 2025 – present

Production backend API platform built with Node.js, Express.js, TypeScript, and MongoDB for a private client.

- Built 20+ RESTful APIs handling 5,000+ monthly requests with response times under 150ms.
- Designed MongoDB data models with indexing and pagination, improving query performance by 45%.
- Implemented JWT authentication, RBAC middleware, Redis caching, and API security best practices.
- Deployed on AWS using PM2 and Nginx; documented all APIs with Swagger/OpenAPI.

Skills

Languages: JavaScript (ES6+), TypeScript

Backend: Node.js, Express.js, REST API Design, MVC Architecture, Microservices

Databases: MongoDB, Mongoose, MySQL, Schema Design, Indexing, Query Optimization

Security: JWT, OAuth 2.0, RBAC, Passport.js, Rate Limiting, API Security

Cloud & DevOps: AWS, Docker, CI/CD, Redis, PM2, Nginx, Linux

Tools: Swagger/OpenAPI, Postman, Jest, Git, GitHub

Education

Relevel by Unacademy, Back-end Development Certification

Feb 2022 – Nov 2022

BCom

Dr. Babasaheb Ambedkar Marathwada University, Commerce

Jan 2019 – Dec 2021
